Description

Google Recruitment 2024

As an AWS Solutions Architect at Google, you'll be at the forefront of Google's cloud initiatives, leveraging your expertise in Amazon Web Services (AWS) to design, build, and implement secure and scalable cloud solutions. You'll be a trusted advisor, working closely with internal stakeholders and partners to ensure optimal cloud adoption and utilization.

Google Jobs Near Me

Responsibilities:

- Design and architect secure, scalable, and cost-effective cloud solutions on AWS for Google's internal projects.
- Collaborate with developers, engineers, and product teams to understand their cloud needs and translate them into technical solutions.
- Evaluate and recommend new AWS services and technologies that align with Google's cloud strategy.
- Provide technical expertise and guidance on best practices for cloud architecture, security, and compliance.
- Automate infrastructure provisioning and management using Infrastructure as Code (IaC) tools.
- Monitor and troubleshoot cloud deployments, ensuring optimal performance and availability.

- Stay up-to-date on the latest advancements in AWS technologies and best practices.

Google Careers

Skills:

- Minimum Bachelor's degree in Computer Science, Information Technology, or a related field preferred.
- 3+ years of experience designing, building, and deploying cloud solutions on AWS.
- Strong understanding of AWS architecture principles, services, and best practices.
- Proficiency in Infrastructure as Code (IaC) tools like Terraform or AWS CloudFormation.
- Excellent analytical and problem-solving skills to identify and address cloud challenges.
- Communication and collaboration skills to work effectively with diverse teams.
