Description

IBM Recruitment 2023

IBM is looking for professional and skilled Computer Programmers to join our team. As a Computer Programmer, you will be responsible for designing, developing, and maintaining software applications. You will also work with other team members to ensure that our software meets the needs of our customers.

Responsibilities:

- Design, develop, and maintain software applications using a variety of programming languages and technologies
- Work with other team members to gather and analyze requirements, design and develop solutions, and test and deploy software
- Debug and troubleshoot software problems
- Keep up to date with the latest programming languages and technologies

(adsbygoogle = window.adsbygoogle || []).push({});

Skills:

- Strong programming skills in a variety of programming languages, such as Java, C/C++, Python, or JavaScript
- Experience with software development tools and methodologies
- Excellent problem-solving and analytical skills
- Ability to work independently and as part of a team
- Strong communication and interpersonal skills
