Description

IBM Recruitment 2023

IBM is looking for a highly motivated and experienced Data Analyst to join our team. The ideal candidate will have a strong understanding of data analysis principles and techniques, as well as experience in the use of data mining and machine learning tools.

Responsibilities:

- Collect, clean, and prepare data for analysis in a timely and efficient manner.
- Develop and implement data analysis models that are accurate and reliable.
- Analyze data to identify trends and patterns that can be used to make informed decisions.
- Communicate the results of data analysis to stakeholders in a clear and concise manner.
- Maintain and update data analysis tools and systems to ensure that they are up-to-date and meet the needs of the team.
