IBM Jobs Near Me

Responsibilities:

- Provide technical assistance and support for hardware, software, and network-related issues.
- Diagnose and troubleshoot computer systems, peripherals, and network problems, and resolve them promptly.
- Perform regular maintenance tasks, including system updates, patches, and backups, to ensure optimal performance and data security.
- Monitor system performance, identify potential issues, and implement preventive measures.
- Conduct training sessions for end-users to educate them on basic computer operations, software applications, and security best practices.
- Create and maintain technical documentation, including user guides, troubleshooting manuals, and knowledge base articles.

IBM Careers

Requirements:

- Strong knowledge of computer hardware, operating systems (e.g., Windows, Linux), and software applications.
- Familiarity with computer networks, TCP/IP protocols, and troubleshooting network connectivity issues.
- Proficiency in diagnosing and resolving hardware and software problems.
- Excellent problem-solving and analytical skills to identify and resolve technical issues efficiently.
- Good communication and interpersonal skills to interact with end-users and provide clear instructions and support.
- Ability to work independently and collaboratively as part of a team.
