IBM Jobs Near Me

Responsibilities:

1. Security Operations: Monitor and investigate security events, incidents, and vulnerabilities to identify potential threats and risks. Collaborate with cross-functional teams to implement security controls, conduct risk assessments, and develop incident response plans. Stay updated with emerging threats and industry trends to proactively address security concerns.
2. Policy Development and Compliance: Develop, implement, and enforce information security policies, standards, and procedures in alignment with industry regulations and best practices. Conduct regular audits and assessments to ensure compliance with internal and external security requirements. Provide guidance and support to teams in adhering to security policies and procedures.
3. Security Awareness and Training: Promote a culture of security awareness

by developing and delivering training programs, workshops, and awareness campaigns to educate employees about information security best practices. Conduct security awareness assessments and evaluate the effectiveness of training initiatives. Stay abreast of evolving security threats and technologies to continuously improve security awareness programs.
