Description

Infosys Recruitment 2024

Are you an Oracle SQL whiz with a passion for building efficient and scalable database solutions? Do you thrive in a collaborative environment and enjoy tackling complex technical challenges? If so, then Infosys wants to hear from you!

Why Join Infosys as an Oracle SQL Developer?

Infosys is a global leader in next-generation digital services and consulting, empowering businesses worldwide to navigate their digital transformation journeys. As an Oracle SQL Developer at Infosys, you'll play a vital role in designing, developing, and maintaining critical database systems that drive our clients' success.

What We Offer:

- **Dynamic Work Environment:** Be part of a team of passionate and talented professionals who are constantly pushing the boundaries of innovation.
- **Global Exposure:** Work on projects with international clients, gaining valuable experience in diverse industries.
- **Continuous Learning:** Infosys fosters a culture of continuous learning, providing you with access to industry-leading training and development programs to stay ahead of the curve.

- **Career Growth Opportunities:** Infosys offers a clear career path with ample opportunities for growth and development.
- **Competitive Compensation and Benefits:** Enjoy a competitive salary and benefits package, including health insurance, paid time off, and retirement savings plans.

Infosys Jobs Near Me

Job Summary

We are seeking a highly motivated and skilled Oracle SQL Developer to join our growing team. You will be responsible for the full lifecycle of database development, from designing and implementing efficient database structures to writing complex SQL queries and stored procedures. You will also work closely with other developers and stakeholders to ensure the successful delivery of projects.

```

```

Key Responsibilities:

- Design and develop database schemas using industry best practices.
- Write and execute complex SQL queries to retrieve, manipulate, and analyze data.
- Develop and maintain stored procedures, functions, and triggers to automate database tasks.
- Optimize database performance by identifying and resolving bottlenecks.
- Perform data migration and ensure data integrity.
- Work collaboratively with developers, analysts, and other stakeholders to understand requirements and translate them into technical solutions.
- Document database design, queries, and procedures for future reference.
- Stay up-to-date with the latest advancements in Oracle SQL and database technologies.

Required Skills and Qualifications:

- Bachelor's degree in Computer Science, Information Technology, or a related field (or equivalent experience).
- Minimum of 2+ years of experience working with Oracle SQL databases.
- Strong understanding of relational database concepts (normalization, data types, constraints).
- Proficiency in writing complex SQL queries (joins, subqueries, functions).
- Experience with stored procedures, functions, and triggers (PL/SQL).
- Excellent analytical and problem-solving skills.
- Strong communication and collaboration skills.
- Ability to work independently and as part of a team.

Experience:

This position is open to both experienced professionals and enthusiastic freshers with a strong foundation in SQL and a eagerness to learn.
