### Description

## IT Specialist Jobs For IBM

IBM is at the forefront of technological innovation, and our network infrastructure is the backbone that connects it all. As a Network Engineer, you'll be a vital part of this dynamic ecosystem, ensuring the reliable, secure, and high-performance connectivity that fuels our global operations. You'll work alongside a talented team of experts, designing, deploying, and maintaining cutting-edge network solutions that support our business and empower our clients.

(adsbygoogle = window.adsbygoogle || []).push({});

### IBM Careers

#### Responsibilities:

- **Build and optimize network infrastructure:** Analyze network requirements, design and implement scalable network architectures, configure network devices (routers, switches, firewalls), and manage network security policies.
- **Troubleshoot and resolve network issues:** Proactively monitor network performance, identify and diagnose network problems, and implement effective solutions to minimize downtime and maintain service levels.
- **Collaborate and innovate:** Work closely with colleagues across IT and business units, stay informed about emerging networking technologies, and contribute to the continuous improvement of our network infrastructure.

## **IBM Jobs Near Me**

### **Skills & Qualifications:**

- Bachelor's degree in Computer Science, Information Technology, or a related field.
- Strong understanding of networking concepts and protocols (TCP/IP, Routing, Switching, etc.).
- Experience with Cisco network devices (routers, switches, firewalls) is highly preferred.
- Familiarity with network monitoring tools and scripting languages (Python, Bash) is a plus.
- Excellent communication, collaboration, and problem-solving skills.
- Ability to work independently and as part of a team in a fast-paced environment.
