Description

IBM Recruitment 2023

Job Title: Production Engineer

Company: IBM

Location: Hyderabad, Badangpet, India

Job Description:

IBM, a global technology and consulting company, is seeking a talented Production Engineer to join their team in Hyderabad. As a Production Engineer at IBM, you will be responsible for managing and optimizing the production processes to ensure the efficient and high-quality delivery of products and services. This role requires a strong technical background, excellent problem-solving skills, and the ability to work in a fast-paced environment.

IBM Jobs Near Me

Responsibilities:

1. Production Management: Oversee and manage the production processes, including planning, scheduling, and coordinating activities to meet production targets and customer requirements.
2. Process Optimization: Continuously analyze and improve production

processes to enhance efficiency, productivity, and quality. Identify areas for optimization and implement appropriate solutions.

3. Quality Control: Ensure adherence to quality standards and procedures throughout the production process. Conduct regular inspections, perform quality checks, and implement corrective actions as necessary.

4. Troubleshooting: Identify and resolve production issues and technical problems that may arise. Collaborate with cross-functional teams, such as engineering and maintenance, to troubleshoot and implement effective solutions.

5. Data Analysis: Analyze production data, performance metrics, and key indicators to monitor and evaluate production efficiency and effectiveness. Generate reports and insights to support decision-making and process improvement initiatives.

6. Documentation and Reporting: Maintain accurate documentation of production activities, including process changes, equipment maintenance, and performance records. Prepare reports and presentations to communicate production status and performance to stakeholders.

7. Safety and Compliance: Ensure compliance with health and safety regulations and guidelines. Promote a culture of safety and implement measures to minimize workplace hazards and risks.
