Description

Mankind Pharma Recruitment 2023

Job Title: Quality Control Coordinator

Company: Mankind

Location: Bangalore, Bellandur

Job Summary: Mankind is currently seeking a Quality Control Coordinator to join our team in Bangalore, Bellandur. As a Quality Control Coordinator, you will play a vital role in ensuring the quality and compliance of our products and processes. You will be responsible for conducting quality inspections, implementing quality control procedures, and collaborating with cross-functional teams to maintain and improve product quality standards.

Mankind Pharma Jobs Near Me

Responsibilities:

1. Quality Inspections: Perform regular inspections of raw materials, in-process products, and finished goods to ensure compliance with quality standards and specifications. Conduct visual inspections, measurements, and tests to identify defects, deviations, or non-conformities.
2. Quality Control Procedures: Develop and implement quality control procedures, guidelines, and checklists to maintain consistency and

adherence to quality standards. Ensure all quality control activities are documented and recorded accurately.

3. **Data Analysis:** Analyze quality data, including inspection results, test reports, and customer feedback, to identify trends, patterns, and areas for improvement. Collaborate with cross-functional teams to address quality issues and implement corrective actions.
4. **Documentation and Reporting:** Maintain accurate and up-to-date documentation of quality control activities, including inspection reports, test records, and non-conformance reports. Prepare regular quality reports and dashboards to communicate key quality metrics and trends to management.
5. **Continuous Improvement:** Identify opportunities for process improvement and participate in quality improvement initiatives. Collaborate with manufacturing, engineering, and R&D teams to implement changes that enhance product quality and operational efficiency.
6. **Compliance and Audit Support:** Ensure compliance with relevant quality standards, regulations, and industry best practices. Assist in internal and external audits, including preparation, documentation, and resolution of audit findings.
7. **Training and Development:** Provide training and support to employees on quality control procedures, quality standards, and best practices. Foster a culture of quality consciousness and continuous improvement throughout the organization.
8. **Supplier Quality Management:** Collaborate with the procurement team to evaluate and monitor the quality performance of suppliers. Conduct supplier audits and assessments to ensure adherence to quality requirements and drive supplier quality improvement initiatives.
9. **Customer Focus:** Work closely with the customer service team to address customer complaints and quality-related issues. Implement measures to enhance customer satisfaction and drive a customer-centric approach to quality.

Mankind Pharma Careers

Requirements:

- Bachelor's degree in a relevant field (e.g., Engineering, Quality Management, Chemistry, Pharmacy).
 - Proven experience in quality control, quality assurance, or a related role, preferably in the pharmaceutical or healthcare industry.
 - Strong knowledge of quality control principles, methodologies, and tools.
 - Familiarity with quality standards and regulations, such as ISO, GMP, and FDA guidelines.
 - Excellent analytical and problem-solving skills.
 - Attention to detail and strong organizational skills.
 - Effective communication and interpersonal skills.
 - Ability to work independently and collaborate effectively in a team environment.
 - Proficiency in using quality control software and tools.
- Certification in quality management (e.g., Six Sigma, Lean, ASQ) is a plus.
