Description

Wipro Recruitment 2023

Wipro is seeking an experienced and innovative Cloud Architect to join our team. As a Cloud Architect, you will be responsible for designing, implementing, and maintaining scalable and secure cloud-based solutions for our clients. You will work closely with stakeholders to understand business requirements, assess existing IT infrastructure, and develop strategic cloud migration plans.

Wipro Jobs Near Me

Responsibilities:

- Collaborate with clients and internal teams to understand business objectives and technical requirements, and design cloud-based solutions that align with their goals.
- Assess existing IT infrastructure and identify opportunities for cloud adoption, optimization, and migration.
- Define cloud architecture patterns, frameworks, and best practices to ensure scalability, performance, security, and cost efficiency of cloud solutions.
- Collaborate with development teams to optimize applications for cloud environments and leverage cloud-native services.
- Plan and execute cloud migration strategies, ensuring minimal disruption to operations and data integrity.
- Monitor and troubleshoot cloud infrastructure and services, addressing performance issues, security vulnerabilities, and other operational challenges.
- Stay updated on emerging cloud technologies, industry standards, and regulatory requirements to drive innovation and ensure compliance.

Wipro Careers

Requirements:

- Proven experience as a Cloud Architect or a similar role, with expertise in designing and implementing cloud solutions.
- Strong knowledge of cloud platforms such as AWS, Azure, or Google Cloud, and proficiency in cloud-native services and tools.
- In-depth understanding of cloud architecture patterns, microservices, containerization, and serverless computing.
- Familiarity with DevOps practices and tools for continuous integration and deployment (CI/CD).
- Excellent problem-solving and analytical skills, with the ability to translate complex business requirements into practical cloud solutions.
