Wipro Jobs Near Me

Responsibilities:

1. Cloud Solution Design: Collaborate with clients and internal teams to understand their business requirements and design scalable and secure cloud-based solutions. Develop architecture blueprints and roadmaps that align with industry best practices and client objectives.
2. Cloud Infrastructure Implementation: Lead the implementation of cloud infrastructure and services, ensuring smooth migration and deployment of applications to the cloud environment. Configure and optimize cloud resources, monitor performance, and ensure high availability and disaster recovery capabilities.
3. Cloud Strategy and Consulting: Provide expert guidance to clients on cloud adoption strategies, assessing their existing IT infrastructure, and recommending suitable cloud solutions. Assist in defining cloud governance frameworks, security controls, and compliance requirements.

Requirements:

1. Cloud Technologies: Possess strong knowledge of cloud platforms, such as Amazon Web Services (AWS), Microsoft Azure, or Google Cloud Platform (GCP). Familiarity with cloud services, such as compute, storage, networking, and databases, is essential.
2. Architecture and Design: Demonstrate expertise in cloud architecture and design patterns, including microservices, serverless computing, containerization, and DevOps practices. Ability to translate business requirements into technical solutions is crucial.
3. Problem-Solving and Collaboration: Exhibit excellent problem-solving skills and the ability to work effectively in a team environment. Strong communication and interpersonal skills are essential to collaborate with stakeholders and present complex technical concepts to non-technical audiences.
