Wipro Jobs Near Me

Responsibilities:

1. System Maintenance and Support: Provide technical support and troubleshooting for hardware, software, and network-related issues. Identify and resolve technical problems promptly to minimize downtime and ensure optimal system performance. Monitor system logs, perform regular maintenance tasks, and implement preventive measures to proactively address potential issues.
2. Project Execution: Contribute to the planning, execution, and delivery of IT projects in collaboration with cross-functional teams. Assist in gathering and analyzing user requirements, designing technical solutions, and implementing system enhancements or upgrades. Adhere to project timelines, deliverables, and quality standards to ensure successful project outcomes.
3. Documentation and Training: Create and maintain accurate and up-to-date technical documentation, including system configurations, user manuals, and troubleshooting guides. Conduct training sessions or workshops to educate end-users on system functionalities, best practices, and security measures. Provide ongoing support and guidance to users to maximize their productivity and efficiency.
