Description

Wipro Recruitment 2024

Wipro is a leading global information technology, consulting, and business process services company. We harness the power of cognitive computing, hyper-automation, robotics, cloud, analytics, and other emerging technologies to help our clients adapt to the digital world and make them successful.

Join a team of passionate innovators and build a fulfilling career at Wipro!

We're looking for a talented and motivated individual to join our team as a System Administrator. In this role, you'll play a vital part in ensuring the smooth operation and security of our IT infrastructure, supporting employees across the globe.

Why Wipro?

- **Work on cutting-edge technology:** At Wipro, you'll have the opportunity to work with the latest advancements in IT, including cloud computing, automation, and security solutions.
- **Global exposure:** Wipro is a multinational company with a presence in over 60 countries. You'll have the chance to collaborate with colleagues from diverse backgrounds and gain valuable global experience.
- **Career growth opportunities:** We offer a supportive and encouraging work environment that fosters learning and development. You'll have access to a wide range of training programs and opportunities to advance your

career.
- **Competitive compensation and benefits:** We offer a comprehensive benefits package that includes health insurance, paid time off, and retirement savings plans.

Job Summary

As a System Administrator at Wipro, you'll be responsible for a variety of tasks, including:

- Installing, configuring, and maintaining servers, operating systems, and network devices.
- Monitoring system performance and proactively identifying and resolving issues.
- Implementing and maintaining security measures to protect our IT infrastructure.
- Providing technical support to end-users.
- Automating routine tasks to improve efficiency.
- Staying up-to-date with the latest technologies and trends in IT.

Wipro Jobs Near Me

Key Responsibilities

- Install, configure, and maintain a variety of hardware and software systems, including servers, desktops, laptops, network devices, and applications.
- Perform system hardening and configuration management to ensure security compliance.
- Create and manage user accounts and access controls.
- Implement backup and disaster recovery strategies to ensure data protection.
- Monitor system performance and troubleshoot any issues that may arise.
- Document system configurations and procedures.
- Provide technical support to end-users via phone, email, or in person.
- Research and implement new technologies to improve system efficiency and security.
- Participate in IT projects and initiatives.

Required Skills and Qualifications

- Bachelor's degree in Computer Science, Information Technology, or a related field (or equivalent experience).
- Minimum of 1-2 years of experience in a system administration role (experience can be tailored based on company needs).
- Strong understanding of networking concepts, including TCP/IP, DNS, and DHCP.
- Experience with Windows and/or Linux operating systems.
- Experience with server virtualization technologies (e.g., VMware, Hyper-V).
- Excellent problem-solving and analytical skills.
- Strong communication and interpersonal skills.
- Ability to work independently and as part of a team.
- Excellent time management and organizational skills.

Experience

This role is open to both recent graduates (freshers) and experienced professionals. We are looking for individuals with a strong foundation in IT and a passion for learning.
